

GLOVES IN A BOTTLE

in the UK NOW!

Protects and Moisturises

- Rapidly absorbs into and bonds with the outer layer of skin, creating a protective layer while retaining the natural moisture from within.
- Does not wash off, comes off naturally with exfoliated skin cells. Just reapply every four hours for continued protection.
- Greaseless, non-sticky, fragrance-free, hypoallergenic, completely safe and non-toxic.

Ideal protection for:

- Housework • DIY • Sport • Constuction work
- Engineering • Medical Workers • Gardening
- **It is also great for feet!**

Keep the good stuff in & the bad stuff out

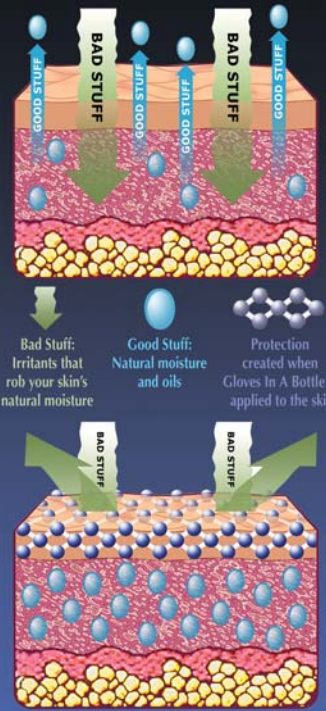

Conventional lotions only attempt to replace natural moisture with artificial moisture but it comes off every time you wash. One application of Gloves In A Bottle lasts four hours or more and comes off naturally with exfoliated skin cells.

Unlike artificial moisturizers, Gloves In A Bottle bonds with the outer layer of skin to turn it into what works like an invisible pair of gloves.

These "invisible gloves" keep moisture robbing irritants out while helping to retain your skin's own natural moisture, resulting in skin that is better hydrated than what is achieved by conventional lotions. When you know you should be wearing gloves, whether fishing, painting, gardening, or exposed to harsh elements, but don't want to put any on because they are annoying, wear Gloves In A Bottle.

Gloves In A Bottle is used and recommended daily by hundreds of dermatologists.
