### GLOVES IN A BOTTLE

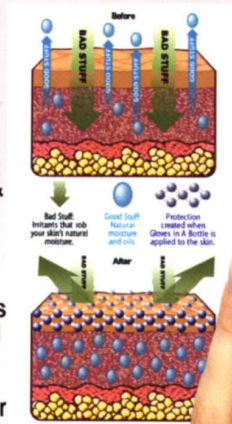

Moisture  
The way nature  
intends™

## NEW INVISIBLE HAND PROTECTION!... HATE WEARING GLOVES?...

Protects the skin against most chemical irritants, e.g:

- ~ Colourants / Peroxide.
- ~ Styling products / Perming lotions.
- ~ Shampoo / Conditioners / Water.
- ~ Nickel allergies.

Only 2 applications a day needed.

**240 Applications Per Bottle!**

(Based on using the recommended, pea sized amount for both hands)

Already well established in America, a new hand protection shielding lotion that bonds with the outer layers of the skin, is now available from Hair Tools.

Artificial lotions only attempt to replace natural oils with artificial moisture, but come off every time you wash. One application of GIAB does not wash off & works like an invisible pair of gloves preventing dirt & grime from penetrating the skin. These 'Invisible Gloves' keep moisture-robbing irritants out while retaining your skins natural oils.

GIAB rapidly absorbs into & bonds with the outer layer of skin providing a protective glove-like coating, that comes off naturally with exfoliated skin cells after at least 4 hrs. It's an ideal moisturiser for dry & cracked skin by allowing skin to breathe & retain its natural moisture & oils.

Sufferers of eczema, dry/itchy, cracked skin are often deprived of their pleasures in life because harsh weather or chemical irritants badly affect their skin. Many workplace & household chemicals are absorbed directly into the skin, causing dry, itchy, & cracked skin. Conventional lotions just replace natural oils with artificial ones, offering only temporary relief that does not heal the skin.

**Non greasy ~ Non sticky ~ Hypoallergenic / Dermatologically tested.**

**ALSO AVAILABLE IN 1 GALLON SALON SIZE BOTTLES!**
