

Kid gloves

Johnstone's & Leyland Paints is launching Gloves in a Bottle into its 175 decorating outlets throughout the UK and Eire. Already well established in America, this new hand protection Shielding Lotion will be available in all Johnstone's Leyland Decorating Centres from July 2008. Gloves in a Bottle is a non-greasy, non-sticky, hypoallergenic and completely safe hand protection Shielding Lotion. It's an ideal skin safeguard for applications that include: work in harsh weather conditions, household chores, DIY, decorating, sport, gardening, construction and engineering work. Applied to clean, dry hands it rapidly absorbs into and bonds with the outer layer of skin forming a protective and hydrating 'shield'. There's no trace after just a couple of minutes (if there is too much is being used) so unlike barrier creams or rubber gloves, hands are left safe & free to work with.

Helping hands

Hand protection shielding lotion Gloves in a Bottle is now available from all 175 Johnstone's Leyland Decorating Centres. Gloves in a Bottle is a non-greasy, non-sticky, hypoallergenic shielding lotion that safeguards hands against activities such as diy, decorating, gardening and construction work as well as harsh weather conditions. When applied to clean, dry hands it absorbs into the skin and bonds with the outer layer leaving no trace after two minutes. It does not wash or rub off and prevents dirt or grime from penetrating while hydrating the skin. It remains effective for three to four hours and a 60ml bottle has an rrp of £4.99.

DECORATING MATTERS

GLOVES IN A BOTTLE *Summer 2008*
IS NOW AVAILABLE IN ALL
JOHNSTONE'S DECORATING CENTRES

ENQUIRY NO: 161079/7

Johnstone's & Leyland Paints is launching **Gloves in a Bottle** into their 175 decorating centres throughout the UK and Eire from July 2008. **Gloves in a Bottle** is a non-greasy, non-sticky, hypoallergenic and completely safe hand protection **Shielding Lotion**. It's an ideal skin safeguard for applications that include: work in harsh weather conditions, household chores, DIY, decorating, sport, gardening, construction and engineering work: It does not wash or rub off and prevents dirt and grime from penetrating the skin, leaving hands protected and easier to clean.

Gloves in a Bottle remains effective for around 3-4 hours, so a decorator or builder will only have to apply 2-3 times a day. With normal use a 60ml bottle at just £4.99 should last 3-4 weeks.

FREE giveaway

Win one of 24 bottles of **Gloves in a Bottle** 'Shielding Lotion' worth €6.50 each

For many gardeners, taking care of their hands throughout the seasons becomes a chore. Thousands of doctors & dermatologists now recommend using a good shielding lotion. 'Gloves in a Bottle' bonds with the outer layer of the skin to form an invisible protective barrier - keeping the irritants out and keeping your own natural oils in.

'Gloves in a Bottle' is widely available at quality pharmacies, garden & DIY stores and on www.allergybestbuys.com.
